

# Bugs found

End parking message contains error, word in Hebrew when all message in English and its grammar is broken (see screenshot)

The screenshot shows a web application interface for parking management. At the top, there is a navigation bar with links: Dashboard, History, Users, and Logout. Below the navigation bar, a yellow notification banner displays the message: "Parking ended for 18180221. Fee: ₪0.72 (חייב: error)". The main content area is titled "חניות פעילות נוכחיות" (Active Parking Spaces). It contains several input fields: "Car Plate" with a placeholder "Enter exactly 8 digits (0-9) for the license plate", "Vehicle Type" with a dropdown menu showing "Standard", and "Slot" with an empty input field. There is also an "Image" section with a "Choose File" button and a "No file chosen" label. A blue "Start Parking" button is located below the input fields. At the bottom, there is a table with four columns: "מספר רכב" (Car Number), "מספר חניה" (Parking Space Number), "שעת התחלה" (Start Time), and "פעולה" (Action).

Steps to reproduce:

1. Fill relevant fields and start parking
2. Stop parking, as result this message appears

Expected result:

Message should be in one language, understandable, according to schema described in PRD

Severity – Show stopper

Priority – High

Deleting logged in user by himself without confirmation prompt

Steps to reproduce:

1. Log in and add new user
2. Log out and log in with user credentials you just created
3. Click on delete button.

Actual result

As result of step 3 user will be kicked out from the system without confirmation prompt and user will be deleted

Expected result:

Information window should appears informing that the action is impossible and only Admin user can delete others users

Severity – Show stopper

Priority – High
